OBJECTIVE

Aspiring Software Development Engineer skilled in building scalable web applications using React.js for frontend and Django for backend. Experienced in creating efficient, user-focused solutions across the full stack.

EXPERIENCE

Web Developer Intern

Bharat Economic Forum

Remote

June 2025 – Aug 2025

- Developed a Health & Pharma landing page with **React, Tailwind CSS**, improving lead capture by **25%**.
- Built a responsive UI aligned with brand guidelines, boosting engagement across devices.
- Led 4 developers to resolve **15+ critical issues**, enhancing performance and reducing downtime.
- Managed the Github directory by verifying the merge request and solved conflicts.

PROJECTS

iHike | React, Tailwind CSS

[Live Demo](#)

- Developed a hiking trip planner with destination search, trail details, and itinerary customization.
- Designed an interactive UI with Tailwind CSS, improving navigation and user retention.
- Optimized build with Vite, achieving faster load times and smoother performance.

HelloGrids | React, Tailwind CSS, Three.js

[Live Demo](#)

- Created drag-and-drop interface with reusable components for rapid UI prototyping.
- Implemented real-time code generation, enabling instant access to clean, responsive layouts.
- Enhanced visuals with Three.js for interactive design previews and better developer experience.

College Talkies | Python, Django, JavaScript, Bootstrap

[Live Demo](#)

- Built a discussion platform enabling topic-based threads and real-time participation.
- Created functionalities including chat room creation and join other chat rooms.
- Delivered mobile-friendly design with Bootstrap, increasing accessibility across devices.
